Los Tejas

Sep 22, 1971

Dearest,

It has been great going to school with you. You have got a great personality so keep it. I hope we can become better friends and maybe even sister-in-laws. I sure do hope so. If you and Edward do get married I hope we can be close and I want to direct your wedding. I've never been anyone so in love before. Do want to see you to let you spend the rest of your life with Edward. Remember to build your marriage on God's love and I guarantee it will last. I don't think I've ever known a better Christian in my life and I thank God for you.

Love, Debbie Smith

Best luck always

Foreword

"Our first step was knowledge, let the second be success," is the Class of '71 motto.

Twelve long rough years have been spent here, for some thirteen. We've shared happiness, good times, bad times, and inbetween times. It's only one cycle of life or one step that every person must face at least once in his or her life, but to capture our last year of hard work, sometimes play, we present Los Tejas, which has tried to capture some of the most memorable moments of 1971.

This year our dedication goes to a person we all respect and honor. He is a warm and understanding friend to all and someone who won't quit when things get rough.

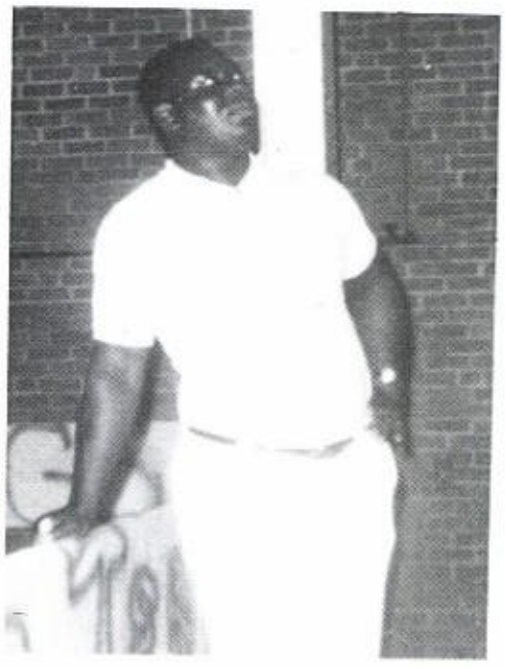
Campus Candids of All-Round Greats

Never a dull moment, huh?



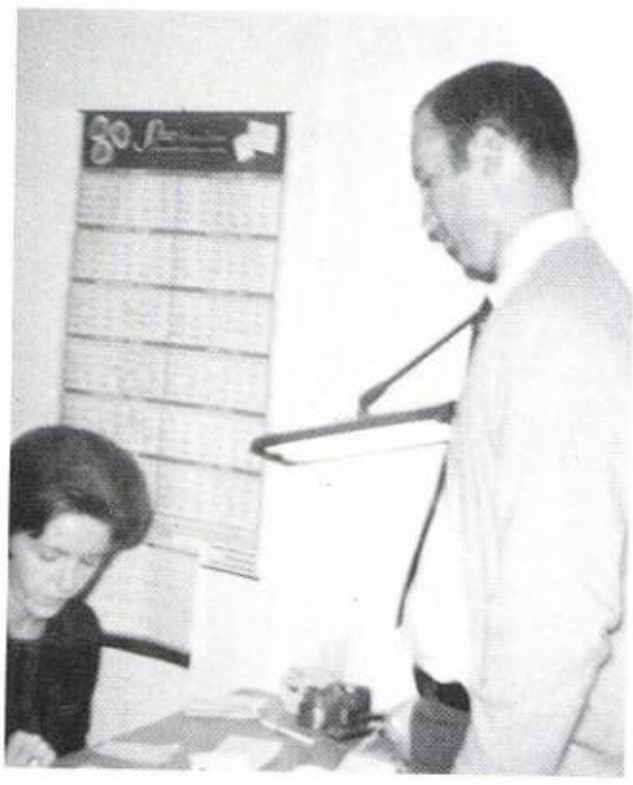
All I have to say is ditto.

For the last time, put that candy up.

Does English bore you, Mrs. McLeod?

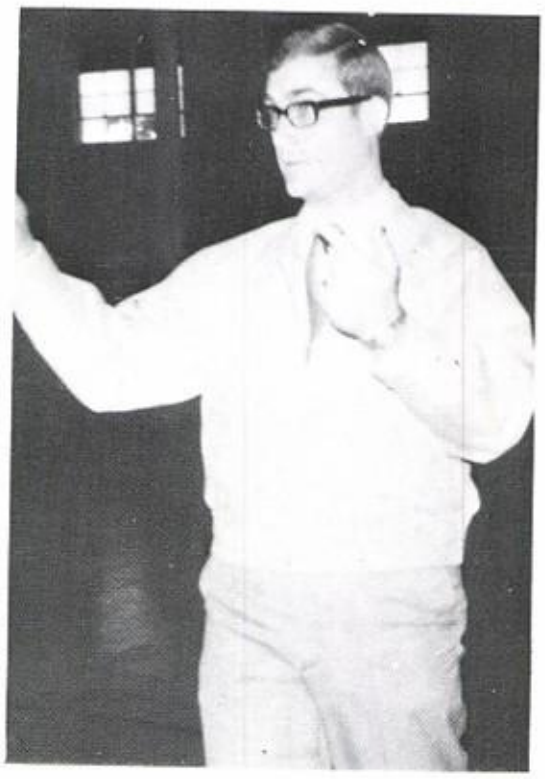
It isn't polite to whisper, Wally.

The '71 Seniors just willed me a scare crow for my corny jokes.



No wonder your work is never done.

Then you admit that civics has its sour moments?



Alright, who said I couldn't sing?

Dear Sherry,

Since June you and I have gotten to be real crazy but close friends. You have a wonderful personality and alot of fun to be with. We have alot of fun in day and night school. I know our friendship will last forever; with us how else could it be? Maybe we can make it through Business Math & Psychology without getting kicked out first

Good luck in the future. Not because you need it because you have what it takes already. Be good... if you can't be good be careful and if you can't be careful. Well, you know how the old story goes!

Love always,
Kathy Johnston
